About Me

Product Manager with 10 years of experience in the E-commerce and Fintech industries. Specialized in building scalable products and driving data-driven growth strategies. Committed to solving complex business challenges and creating sustainable value for both users and organizations.

Personal attributes:

- Analytical mindset with a focus on data-driven decisions
- Skilled in product strategy and go-to-market execution
- Adaptive, results-focused, and team-oriented
- Strong in leadership, negotiation, and problem-solving

Education

Master of Business Administration (MBA course), Tehran University
2020 – 2022

Civil Engineering, Lorestan University
2010 – 2014

Professional Experience

Product Lead, OmidBoom (Sepah Bank)

Feb 2024 – present

- Designed and developed a Personal Financial Management (PFM) solution within the Neobank ecosystem, from discovery to development, with the goal of improving stickiness and positioning the app as users' primary financial decision-making tool.
- Designed and developed a modular banking loyalty infrastructure by implementing flexible engines for gamification scenarios, intelligent tiering, and periodic campaigns, aimed at personalizing the loyalty experience for different customer segments.
- Designed and managed a targeted campaign for 1 million business users, focused on resource growth, which resulted in a 32% increase.
- Designed a 1-month BNPL credit line for Daric, including the business plan, revenue model, and product feature list, with the goal of diversifying the credit product portfolio and increasing user engagement.
- Developed a one-year strategic neobank roadmap aimed at narrowing the competitive gap and expanding differentiated product capabilities to gain market share and create a distinct digital customer experience.

Product Marketing Consultant, Ewyas

Nov 2025 – May 2026

- Designed and executed a revenue-driven campaign end to end—from PRD creation and financial modeling to performance monitoring—achieving a 257% ROI while maintaining profit margins.
- Developed and launched a new revenue stream in partnership with Snapp Group by defining the Go-To-Market (GTM) strategy; leveraging shared capabilities, expanding sales channels, and diversifying revenue streams.
- Built a customer CLV model and developed lifetime value-based marketing programs to optimize resource allocation, improve campaign efficiency, and identify higher-value customer segments.
- Designed and launched a set of product-led cross-sell pages, optimizing the selection-to-checkout journey to increase users AOV.

Product Manager, AVA Digital Banking (IranZamin Bank)

Jul 2022 – Feb 2024

- Designed a Neobank from scratch which includes target audience analysis, sustainable revenue models, a 5-year vision, GTM strategy, and full product design.
- Developed a BI dashboard with 100+ metrics and KPIs for a prominent VOD platform to enable strategic insight and data-driven decisions.

- Researched and identified new business opportunities suitable for potential investment or joint ventures, including new markets, growth areas, trends, products, and services.
- Designed loyalty campaigns that increased point redemption by 70% over the previous year and significantly boosted active user engagement.

Business Development Team Lead, Sheypoor

Jul 2020 – Jul 2022

- Led the business team consisting of two business developers, a CRM owner, and a sales analyst.
- Crafted unique sales strategies leveraging the company's competitive advantages and success factors, resulting in an impressive 60% increase in total sales within a year.
- Conducted interviews with 500 customers, analyzed data, and overhauled both packages and the sales cycle to address challenges, resulting in a 30% increase in new customer acquisition and a 10% boost in the renewal rate.
- Improved team productivity by determining smart KPIs and forecasted sales targets at the beginning of each quarter and ensured they were met by sales experts.
- Implemented a performance management system that evaluated sales experts based on various factors, resulting in increased GMV, and accountability, and reducing the size of the sales team by 50%.

Product Development Team Lead, Sheypoor

Apr 2018 – Jun 2020

- Conducted market research to identify the essential attributes for effective display on the PLP and PDP, tailored to each specific category.
- Redesigned the company's website category structure for a better UX and continuous improvement by conducting Usability Testing.
- 30% reduction of duplicate ads by changing the performance of the recognition bot and significantly increasing the work speed of the admin team.
- Analyzed customer behavior in different regions and identified patterns to assess the potential of each province for B2B opportunities.
- Worked hand-in-hand with the product and technical teams to enhance the company's website search engine suggestions which led to a 15% increase in PDP views.

Project Development Specialist, Pars Miami Kavir

Sep 2017 – Apr 2018

- Developed Work Breakdown Structures (WBS) for projects and conducted a comprehensive analysis of the project growth process.
- Collaborated with clients and stakeholders to identify project goals and requirements.

- Coordinated with project teams and stakeholders to resolve any issues that arose during the construction process.

Product Marketing Specialist, Shixon

May 2015 – Jan 2016

- Responsible for inventory management, and sales monitoring and made recommendations to purchase teams to adjust product mix and pricing that were better suited for customers.
- Analyzed sales data to forecast demand for various product categories and placed orders with vendors accordingly.
- Coordinated multiple projects between different company teams to facilitate goods delivery to customers.
